Paraire 25 o Pepuere 2022

Kia ora nga matua, nga tipuna me nga tamariki mokopuna o Te Kura o Horohoro.
Ko tumanako ia, kia hari, kia koa to wiki.

I was notified by Whaea Kate at 11am yesterday that her son has tested positive for covid19 after taking a Rapid Antigen Test at work yesterday morning. Her son lives with her which makes her a household contact.

I contacted the Ministry of Health (no answer) and then I contacted our senior advisor at the Ministry of Education (Margot Nielsen).
Whaea Kate was instructed to go for a covid test and then head straight home to begin her 10 days of isolation.
Whaea Kate had a Rapid Antigen Test and the test came back negative, which is good news. She will have another test on day three and again on day ten.

School can continue as per normal, but we still need to ensure that:

1. If children feel unwell or have symptoms they must stay at home until they are fully recovered.
2. Wear a mask when you are indoors.
3. Sanitise when you enter and exit the classroom.
4. Disinfect desks or tables before and after morning tea and lunchtime.

If you have any questions please contact me.

Ma te atua e manaaki, e tiaki ia koutou katoa.
